Subcommittee would draft a revision of the ordinance to be reviewed and endorsed by the Commission and forwarded to the City Council for consideration, discussion and approval (Prestwich/Pichly) information only/no staff report/not an action item.

- Demchuk indicated that he has volunteered to be a member of a sub-committee to review City Ordinance 2.56. Weeman motioned to appoint Demchuk and Deasy to the sub-committee. 2nd by Taylor. Approved.

6.4 - Discussion about future improvements in Wappo Park (Demchuk) information only/no staff report/not an action item Prepared By: Andre Pichly, Parks & Recreation Director

- Carl Doumani stated that his intentions are to build the soccer field on the City owned property at Wappo Park for the City of St Helena. Doumani said he is willing to pay all the expenses involved with such a project, including all plans, engineering, soil tests, required restrooms, irrigation, fences, access, required legal fees, etc., and he expects that the City would waive their fees. Doumani would like to be in-charge of the construction of the project, and would like to get it done this year if possible.
- Demchuk asked that someone from Public Works do research to find previous studies and reports that were done on Wappo Park to see if the Doumani proposal is viable and what restrictions exist. Weeman and Kenward concurred.
- Prestwich recommends that staff bring back information regarding limitations associated with the property, any Native American remains, Fish & Game restrictions, Public Contracting process, and the process along with advancing the idea. Prestwich said he would work with staff in order to bring information back to the next meeting.
- Demchuk would like staff to work with Mr. Doumani on identifying the options that might be available for building a soccer field and shade structure in Wappo Park.

6.5 - Review, discuss and provide feedback on St Helena User Fee Report regarding Parks & Recreation fees and charges and Park Impact Fees (Mitts)

USER FEES

- Mitts recommended holding a special meeting or workshop to conduct a more in-depth review of the report; this would allow time to obtain user fee comparisons with other agencies, to which Demchuk identified neighboring communities that could be used to see what they are charging and their fee structure. Mitts indicated this would be a comparison of the other agency adopted user fees and would not include the cost recovery percentages from other agencies, unless it was an agency in which Willdan had conducted their user fee study.
- Pichly described the parks and recreation industry's pricing pyramid for fees and charges. Mitts indicated that having the pricing pyramid would be useful for a future workshop.

IMPACT FEES

- Demchuk asked Mitts if Park Impact Fees need to be separated into two categories; Mitts replied that the study by Willdan shows what can be collected under the Quimby Act and what can be collected under the Mitigation Act. Mitts asked for input and direction from the PRC if that is their recommendation to have it set up separately, as it can be done in the current financial system. Mitts then asked if the commission is supportive of the Park Impact Fees as presented.
- Weeman motioned to accept the proposed Park Impact Fees. Kenward 2nd. Demchuck amended motion to include that in the future the impact fees be separated into funds identified as fees collected under the Quimby Act or under the Mitigation Fees Act. 2nd by Weeman. Approved.

Prop 68 Grant Funding - discuss potential projects for this funding for the Commission to prioritize and endorse - action item

Written by Mandy Kellogg, Finance Manager

Background

As part of the Parks and Water Bond Act of 2018 (Proposition 68) grant funds are available through the Per Capita Program. Proposition 68 was placed on the ballot via Senate Bill 5 (DeLeon, Chapter 852, statutes of 2017), and approved by voters on June 5, 2018. Funds for the program were appropriated via State Budget item 3790-101-6088(b). Funds are available for local park rehabilitation, creation, and improvement grants to local governments on a per capita basis. Grant recipients are encouraged to utilize awards to rehabilitate existing infrastructure and to address deficiencies in neighborhoods lacking access to the outdoors.

Discussion

Under the Per Capita Program the City of St. Helena is eligible for an allocation of \$177,952 which requires a 20% match of \$44,488, with a total project funding amount of \$222,440. Project funds must be used to supplement, not supplant, local revenues in existence as of June 5, 2018. Therefore, if a grantee had a budget identified for a recreational capital expenditure, this cannot be reduced by the allocation with the Per Capita funds making up the difference.

Eligible projects must be capital outlay for recreational purposes. Projects that are identified as repairs or maintenance are not eligible under this grant program.

Use of the funds will require a sign acknowledging the California Drought, Water, Parks, Climate, Coastal Protection, and Outdoor Access for All Act of 2018 as the funding source for the project to be installed during construction and at completion for a minimum of four years from the completion date. In addition, the City will be required to place a deed restriction on the property, safeguarding the property for the purposes consistent with the grant for the duration of the contract performance period.

Recommendation

Staff recommends using the funds to replace the play structures located at Crane Park and would like to receive feedback on this proposal and any additional recommendations. The application deadline is December 2021.
