Determination:

Prepared By: April Mitts, Administrative Services Director

BACKGROUND

On October 27, 2020, the City Council established Phase II Water Regulations and, in accordance with the St. Helena Municipal Code (SHMC), established the Water Advisory Board consisting of one City Council member, one Planning Commissioner, one winery customer, and two public members, one of whom shall solely be a residential customer.

The Water Advisory Board shall have access to all records in the possession of the water enterprise necessary in its judgement to perform its duties, including customer records. The Board shall maintain confidentiality of individual customer records unless the Board determines by resolution that release of such information is necessary in the pursuit of its duties.

The Water Advisory Board shall meet at least monthly and may grant permits for uses of water, for exceptions to water conservation measures, or for water connections otherwise prohibited. The Water Advisory Board shall prescribe necessary procedures for application for and use of exception permits pursuant to SHMC Section 13.04.280.

The City of St. Helena is committed to preventing water waste but also understands that, infrequently, a water leak may occur. When a water leak does occur, customers can request a credit to their utility bill for a portion of the excess water in accordance with P-FI-0005 Leak Adjustment Policy. This policy provides relief to St. Helena water customers who have had a leak that is not due to negligent or willful acts. Under the current Leak Adjustment Policy, leak adjustments are not granted if the City is in a Phase I or higher water emergency or subject to water use limitations by the State of California. However,

recognizing the City's conservation efforts as well as the authority granted under P-FI-0005 for Leak Adjustment appeals, any request for a leak adjustment during a Phase II or Phase III emergency are being evaluated by the City Manager.

In addition to the ability to qualify for a leak adjustment, the City recognizes that during a Phase II or Phase III water emergency, penalties may have been incurred as a result of a leak. On July 27, 2021, the City Council adopted a resolution designating that the Water Advisory Board can hear/make a determination for reduction of penalties for those customers who receive a penalty as a result of a water leak.

On August 6, 2021, the Water Advisory Board adopted policy - P-FI-0022 *Leak Adjustment Policy – Phase II and Phase III Water Penalties* and the applicable *Application Form*, to assist those customers who incurred penalties as a result of a water leak.

Per the established policy, the following criteria must be met:

1. The customer must have not received a leak letter for 2 or more consecutive months or can demonstrate there is a good faith effort to actively locate and fix leaks.
2. All leak(s) must be beyond the control of the owner, agents, tenants, contractors, or anyone occupying the property or using the property that could have reasonably foreseen such a possible leak.
3. The leak(s) cannot be the result of negligent, willful nor neglectful behavior.
4. Proof that the repairs were completed must be included with all requests for a penalty leak adjustment. Examples include a copy of the plumber's invoice or hardware store receipts showing items purchased or proof provided by the City that water use had returned to normal levels during subsequent months.

The Water Advisory Board will consider penalty leak adjustment amounts on a case-by-case basis with the following consideration:

- a. Up to 100% - First Leak
- b. Up to 50% - Subsequent Leaks

DISCUSSION

In accordance with P-FI-0022 *Leak Adjustment Policy – Phase II and Phase III Water Penalties* on October 25, 2021 the City received an application for a leak adjustment and a water penalty leak adjustment for consideration (Attachment 1 and Attachment 2).

Attachment 3 provides a summary of water use for this property.

Attachments 4-9 provides Account Statements from January 1, 2021 to present

Tables 1 through 4 provides additional information for the Water Advisory Board.

Table 1 - Current Allocation – based on a 30-day month:

Residential:	Current Allocation - based on a 30-day month, peak period

	Number in Household:			2	3,900	
	Phase II Outdoor Summer Allocation:				2,500

Table 2 - Penalties imposed:

Administrative approval of penalty waivers is up to \$50,000.

Table 3 – Leak Letters Sent

June 2021

Table 4 – Previous Water Penalty Leak Adjustment(s)

Water Advisory Board Meeting Date	Adjustment Granted
N/A	

On February 25, 2022, the customer's application was denied on an administrative level because it could not be seen that the leak was fixed. In looking at the detailed meter reports it can be seen there was a leak from 6/14/21 to 7/2/21 and again on 9/30/21 to 10/1/21; however, the leaks during these time periods accounts for 2.53 units of water (excluding what appears to be normal irrigation times). Attachment 10 is a copy of the administrative denial, Attachments 11 and 12 are the detailed reports referenced in the administrative denial, and Attachment 13 is the water appeal checklist.

On March 1, 2022, the customer filed an appeal for this item to be brought before the Water Advisory Board (Attachment 14).

FISCAL IMPACT

Dependent on Water Advisory Board recommendation.

RECOMMENDED ACTION

Subject: Water Penalty Leak Adjustment Application
Date: Friday, February 25, 2022 2:55:00 PM

Hi Kenneth and Lisa,

Thank you for your patience as the City reviews the applications for Water Penalty Leak Appeals. In reviewing the appeal application I am unable to approve the appeal on an administrative level as I do not see proof the leaks were repaired. In particular I am looking at the detailed meter reads provided to you by Ian Dale on 10/13/21 and on 1/25/22. In looking at the use reports I can see that there was a leak from 6/14/21 to 7/2/21 and again from 9/30/21 to 10/1/21; however, the leaks during this time only accounts for 2.53 units of water (this accounts for removing what looks like the normal irrigation times – see below).

In looking at the detailed reports, I can see the irrigation turned on every day between 9:36 a.m. and 12:36 p.m. (and in later months was on each day from approximately 9:30 p.m. to 12:30 a.m.). Each day there is approximately 1.5 units of water (1,122 gallons) being used for irrigation. Based on a 30 day month, this would equate to approximately 45 units of water, or 33,662 gallons – which is consistent with each of the monthly meter reads for use. This pattern of use was consistent through mid-October when the irrigation was reduced.

Based on this information your Water Penalty Leak Adjustment is being denied. If there is additional information that I do not have, please let me know as soon as you can so I can re-evaluate the application.

Again, thank you for your patience and please do not hesitate to reach out with any questions.

Subject: Fwd: [External] Water Penalty Leak Adjustment Application
Date: Tuesday, March 1, 2022 10:32:35 AM

Hello April,

Thank you for your email reply and for the review of the appeal. Of course it is not the outcome the Novacks, or I, were hoping for or expecting.

I would hope that the City of SH knows that these homeowners did NOT and do NOT take the high water use issue lightly. Upon the first notification of high water use, we all sprung into action. However, since the water bills no longer come monthly and this is not the primary residence for the Novacks, none of us were alerted in a timely manner to know we even had an issue at play.

We have a weekly landscaping service that we rely on in our absence to check irrigation and the like on their service day (1x a week). The landscaping team didn't know about high water use until we reported it to them. If something goes awry in between their visits and if we are not in residence, then malfunctions in any of the home systems can occur without anyone knowing. I do not receive the water billing so I had no awareness until the bookkeeper cc'd me on email.

As a house manager for the Novacks, I go by once a week on average to perform a site check when no one is in residence. Never did I see excess water pooled in the landscaping or on the patio areas. I would check the water meter and never did I find movement on the dial when the house wasn't in use. There was nothing to suggest that water was being used while the house sat empty. We were aware that our neighbors had construction going on and we wonder if during that time, water was "borrowed" to help with the construction. This is of course an issue that is a challenge to substantiate without evidence, but I have to wonder what their water use looked like during our high use timeframes you outline. This is something I would ask the water department to look closely at. That home was occupied and had construction. It begs the question of, did someone bootleg a hose up to the Novack residence knowing they do not live there full time. This is not out of the realm of possibility.

The City of SH nor us can confirm there were leaks and therefore we cannot provide "proof" of repairs. There may have been a stuck irrigation valve open which Ian and I had discussed. Stuck valves do self correct I have learned and it can also be that the landscaping team repaired valve(s) but not knowing that it possibly was stuck open and ran for hours on end.

In addition, the penalties are simply excessive and unreasonable. How is a homeowner expected to submit such large sums of money. We are pleading for your consideration on

the penalties knowing that this was NOT a flagrant and deliberate abuse of water consumption. We reacted (as soon as the first notice came in with the water bill) as a team to check out irrigation lines and panel, pool, toilets, hose bibs, showers and faucets for any possible signs of leaks. We communicated with our landscaping team to adjust the watering schedule to reflect the city mandates. They might have been somewhat tardy in changing the schedule, but again, with not being a resident 24/7 it is challenging to know what is amiss especially when it is not an water issue that is visible to the eyes and ears. All of this to say that the Novacks are good and conscientious members of the St. Helena community. As a full time resident, I can assure you that my job is to help clients like the Novacks with home management and I would never let clients abuse water consumption willy nilly.

The Novacks and I are respectfully asking for your consideration in a reduction in the penalties on our account. Please let me know if we can further continue this conversation so that we can satisfactorily resolve the issue.

Thank you for your time and consideration. We look forward to hearing from you.

Lisa

Subject: Water Penalty Leak Adjustment Application

Hi Kenneth and Lisa,

Thank you for your patience as the City reviews the applications for Water Penalty Leak Appeals. In reviewing the appeal application I am unable to approve the appeal on an administrative level as I do not see proof the leaks were repaired. In particular I am looking at the detailed meter reads provided to you by Ian Dale on 10/13/21 and on 1/25/22. In looking at the use reports I can see that there was a leak from 6/14/21 to 7/2/21 and again from 9/30/21 to 10/1/21; however, the leaks during this time only accounts for 2.53 units of water (this accounts for removing what looks like the normal irrigation times – see below).

In looking at the detailed reports, I can see the irrigation turned on every day between 9:36 a.m. and 12:36 p.m. (and in later months was on each day from approximately 9:30 p.m. to 12:30 a.m.). Each day there is approximately 1.5 units of water (1,122 gallons) being used for irrigation. Based on a 30 day month, this would equate to approximately 45 units of water, or 33,662 gallons – which is consistent with each of the monthly meter reads for use. This pattern of use was consistent through mid-October when the irrigation was reduced.

Based on this information your Water Penalty Leak Adjustment is being denied. If there is additional information that I do not have, please let me know as soon as you can so I can re-evaluate the application.

Again, thank you for your patience and please do not hesitate to reach out with any questions.

Report to the City Council
Water Advisory Board – March 18, 2022

Subject: **Water Appeal Summary and Feedback for Staff**

Determination:

Prepared By: April Mitts, Administrative Services Director

Reviewed By: April Mitts, Administrative Services Director

Approved By: April Mitts, Administrative Services Director

BACKGROUND

On October 27, 2020, the City Council established Phase II Water Regulations and, in accordance with the St. Helena Municipal Code (SHMC), established the Water Advisory Board consisting of one City Council member, one Planning Commissioner, one winery customer, and two public members, one of whom shall solely be a residential customer.

Per the Municipal Code, the Water Advisory Board shall meet at least monthly and may grant permits for uses of water, for exceptions to water conservation measures, or for water connections otherwise prohibited.

On July 27, 2021, the City Council adopted a resolution designating that the Water Advisory Board can hear/make a determination for reduction of penalties for those customers who receive a penalty as a result of a water leak.

On October 26, 2021, based on the Water Advisory Board's recommendation, City Council adopted Resolution No. 2021-136 providing administrative approval of specified penalty waiver requests which meet the Water Advisory Board's established criteria.

On October 29, 2021, the Water Advisory Board approved a checklist and established criteria for administrative approval of water penalty waiver requests.

DISCUSSION

The Water Advisory Board has met 18 times since April 30, 2021 to conduct business prescribed by the City Council. Table 1 provides a summary of all actions to-date by the Water Advisory Board (WAB), by administrative review, and pending items.
